## GENERAL VILLA EXECUTES MAY SOLDIER AT JUAREZ

OFFICIALS OF TOWN ARE ALSO CONDEMNED—REGULAR TROOPS PARDONED.

EL PASO, Tex., Nov. 17.—Two ex-federal officials, of Juarez, who were taken prisoners by General Francisco Villa's rebel troops were executed at Juarez. They were Pablo Ebaue, an official in the Juarez police department, and Juan Cordova, chief of the Juarez secret police.

The executions took place at the Juarez cemetery, the condemned men standing on the brink of newly-dug graves and falling in when the firing squad shot them. Both men were sentenced to death by General Villa and the orders were carried out by subordinates.

Senora Ebaue, wife of one of the condemned men, was present when the sentence was pronounced and pleaded with Villa to pardon her husband, but he refused.

A squad of 14 federal prisoners was taken out to the cemetery to bury 39 of the soldiers who were killed in the Juarez battle. One of the prisoners, fearing that he was to be executed, tried to escape and was shot by the guards.

The rebel officers say that there are more executions to take place in Juarez and that all of the federal volunteer troops, federal regulars and volunteer army officers will be killed. The soldiers of the regular army will be pardoned.

## PROFIT IN LOW GRADE ORES.

New Hydraulic Classifiers Increase Number of Profitable Properties.

OREGON AGRICULTURAL COLLEGE, Corvallis, Ore., Nov. 17.—By the use of hydraulic classifiers in the process of ore dressing, a number of low grade mines of the Eastern Oregon districts have been transferred from the failure into the producing class, according to investigations made for the State Bureau of Mines by Professor Swartz, of the Agricultural College school of Mines. The classifications have reduced the process of ore dressing to an exact science in which practically all the values are saved.

"In the early and experimental stages of mining ores were crushed into particles of uniform size, without reference to their specific gravity, so that in concentrating a great deal of the values were washed out with the waste. The loss was often so serious as to eat up the margin of profits and end operations, at least for a time.

"By means of the classifiers the milled products were separated on the basis of their specific gravities, and the classified products are conducted to tables prepared especially to handle them. As the different materials in the pulp have different settling rates, the classified products which are gathered on one table have a corresponding difference in size. Thus particles of lighter specific gravity present greater surface to the action of the water current, and are moved at greater rates of speed, effecting a clean-cut separation of waste and metals.

"As an example of classifying, let us consider the case of galena and quartz, with a settling ratio of one to six. When these two products are conducted to the same table, the surface of the quartz is thirty-six times as great as that of the galena. Hence it is washed much faster than the galena, and goes into the waste while the galena is led to the bin.

"The process is both simple and inexpensive. The ground product flows into a small chamber from the bottom of which rises a stream of water whose current is sufficiently strong to permit only the products having the highest specific gravity to settle down against it. These products are led to the proper table while the remaining pulp flows into a larger chamber in which the current is greater, and so on until the final overflow has little or no value. The concentrates are thus dressed so clean that they hold practically all the values and nothing else."

## DIVORCES SCORED BY BUDDING BRIDEGROOM

NEW YORK, Nov. 18.—"A man approaching matrimony should realize that it is a serious, permanent proposition," said Francis B. Sayre, who shortly will wed President Wilson's daughter, Jessie, in an interview.

"I do not believe in easy divorces," he continued, "and I do not think, in the long run, they would solve the problem of unhappy marriages.

"Easy divorce means that people marry with the idea of quickly severing the bond if the matrimonial state proves unpleasant to them. This tends to immorality.

"The difference between East Side immorality and the immorality of Fifth Avenue is that when the East Side husband runs away his wife comes to the district attorney's office for redress, while the Fifth Avenue husband or wife goes to Reno, and is soon free to marry someone else."

REPORTER WAS TOO GAUDY TO SIT UP FRONT

WASHINGTON, Nov. 18.—Dressed in a light suit of striking design, a supreme court reporter the other day leisurely strolled into the enclosure—the sanctum sanctorum—to which only lawyers, attaches and newspaper men are admitted. He sat down at a press table. A firm hand grasped his shoulder. A whisper in his ear informed him that he was transgressing a tradition of the court. "And how, pray," quoth the surprised scribe, forgetting for a moment that he ought not to argue.

"Why, only dark clothes are allowed up here," he was informed. And he had to take a seat on a rear bench.

Your opinion is all right in the estimation of others—if you happen to think as they do.

## Woman and Her Varied Interests

## SOCIETY

Preparations are now under way for the season's most fashionable and popular annual social event, the Library Ball. As usual, the function will take place on the night of New Year's day. The members of the local library board assisted by the various ladies' clubs of this city will have charge of the affair and committees are now being appointed to have charge of the various departments of the event.

The following young people were the guests of Miss Olga La Fontaine Saturday evening when she entertained at the farm home of her brother, Misses Daphne Stearns, Katherine Thompson, Beulah Smith, Thelma Thompson, Lillian Boylen, Mildred Finnell, Vera Temple, Jennie Murphy, Muriel Perfinger, Lula Matlock and Leona Grigsby, and the Messrs. Tom Murphy, Henry Judd, Donald Robinson, Marcus May, Ray Furlish, Ernest Boylen, Ned Fowler, Wesley Mimms, Henry Latourelle, Wilbur Badley, Harold Maloney, Frank Dickson and Morton Moore. Misses Cella Cunningham and Mary Johns acted as chaperones.

A quiet wedding took place at the Methodist parsonage at 7 o'clock last evening when Miss Eva Belle Strever and Lee C. Bissinger were united in marriage. Rev. Hodshire officiating. The bride is favorably known to the community as a young lady of splendid character and the bridegroom is a prosperous young farmer of the county. Mr. and Mrs. Bissinger will reside on their farm, north of Pendleton.

The wedding of Oliver Graham Lee and Miss Alice Smith, a young Echo couple, was solemnized yesterday afternoon at the Episcopal rectory. Rev. Charles Quinby of the Church of the Redeemer officiating. James Lee, father of the bridegroom, was one of the witnesses.

One of the prominent affairs of the present week will be the afternoon at bridge tomorrow at which Mrs. William F. Matlock, Mrs. A. J. McAllister, Mrs. Frank E. Livengood and Mrs. G. Irving La Dow will be hostesses. The function will be held in the Eagle-Woodman hall.

The entertainment which was to have been given at the Christian church on Friday evening of this week has been indefinitely postponed. The entertainment is entitled "Tom Thumb Wedding."

Mr. and Mrs. P. H. Buchholz and Dr. and Mrs. J. R. Cromb of Stanfield, were among the out of town people here last evening to attend the theater.

Mrs. Charles Vinter and Miss Helen Cranston returned home yesterday from Walla Walla where they were guests over Sunday of Miss Bertha Anger.

Mrs. Henry Barrett of Athena, came in from her home this morning to visit friends.

Cause of Insomnia.  
The most common cause of insomnia is disorders of the stomach and constipation. Chamberlain's Tablets correct these disorders and enable you to sleep. For sale by all dealers.—Adv.

## PILOT ROCK COUPLE ENTERTAIN THEIR FRIENDS

(Special Correspondence.)  
PILOT ROCK, Nov. 18.—Mr. and Mrs. Grant Horn entertained a number of their friends Saturday evening in a novel way. At about 6 o'clock all gathered around a roaring campfire where a turkey supper with all the accompanying good things of the season was served. After all had done justice to the feast they spent the remainder of the evening playing games on the lawn. Those present from Pilot Rock were Messrs. Arthur Bond and Lon Etter, Messrs. Georgia Jacques and Lucile Gilliland, and Mr. and Mrs. E. W. Warrington. Those from Pendleton were Mrs. W. T. Porter, Messrs. Irvin, Mann, Rupert Williamson and Misses Nanetta Smith, Hazel Wagner, Sylvia McCarty.

Mr. and Mrs. L. E. Roy returned today from a visit to Colfax. They were accompanied home by their niece, Miss May Ayeremith. Messrs. Lon Etter and Arthur Bond visited Walla Walla last week.

## GIRLS! CLEAN AND BEAUTIFUL HAIR NO DANDRUFF--25 CENT DANDERINE

Try This! Makes Hair Soft, Glossy, Fluffy, Abundant—Stop Washing the Hair With Soap.

Surely try a "Danderine Hair Cleaner" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance. Besides beautifying the hair, one application of Danderine dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful. You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

## WHITE CHARMUSE AND LACE.

A beautiful blouse suitable for wear with black velvet or other rich material appears in today's drawing. The blouse portion and sleeves are of white shadow lace while a length of imitation Duchess is used for the vest, the scalloped edge overlapping a narrow strip of white charmuse with charmuse-covered buttons. A corresponding band finishes the blouse edge on the opposite side. There is a rolling collar of the rich lace and collar and chemise of the shadow. Cuffs of satin from which depend a fall of Duchess lace hold the slightly full sleeves.

## To Carve Mutton.

Carving a leg of mutton is an easy and graceful task when you know how, says the New York Press. With the left hand take hold of the bone end and with a firm stroke of the knife first cut away the portion not to be eaten. Then cut thin slices down to the bone and loosen each slice by putting the knife flat on the bare bone and cutting through. The slicing should gradually change direction, so as to cut always across the grain. After the upper portion is gone proceed in a similar manner to carve the under cut.

## MODES IN BRIEF.

Two-toned or plaided hosiery comes in a wide variety of colorings and combinations of colors.

Small draped hats of velvet with a single feather fancy tellingly placed are in unusually good taste, says the Newark News.

Duvetyn which has made so strong an appeal this fall for suitings, has much in its favor besides the exquisite colorings in which it is to be had. It is not only soft and supple, but has considerable warmth.

A distinctive note of the embroidery which is used on gowns this season is the degree to which it is padded. Apparently it cannot be too heavily padded, and when the handwork is done in worsteds the padding is accentuated.

## Muffin Butter Best Rubbed In.

Whether fat be rubbed into flour or melted and stirred into muffins or biscuits later has often been a disputed question, says the New York Press. Probably for waffles or muffins which are not stiff enough to be shaped with a cutter it is quite as well to melt the fat. Miss Watson of the Ontario Agricultural college found after some careful experiments that while the outward appearance of baking powder biscuits was equally satisfactory those made with melted butter were of inferior texture. When the butter was rubbed into the flour before mixing the texture was better and more tender.

Usually where all ingredients in a dough are cold it is much easier to handle and roll and cut.

## Gasoline Is An Aid In Washing.

A little gasoline put into the wash water with a little more in the rinsing water will first loosen the dirt and then clear the clothes, leaving them as white as snow though they had been spread upon the grass for several hours, and the labor of washing is lessened half thereby. Fine shirt waists and other delicate pieces should be "soaked" never rubbed, and with the gasoline's aid very little manipulation should be required, for it is poor economy to allow such articles to become badly soiled.—Philadelphia Ledger.

## Gravity Clock.

Among the smart English novelties seen is the new gravity clock which does not require winding, says the

New Haven Journal Courier. The motive power is supplied by the weight of the clock which takes seven days to travel down upright bars. At the end of the seven days the clock is simply raised to the top again. The clock stands on a handsome mahogany base and the bars are supported from the center of a handsome arch of mahogany.

Skirt Hangers.  
A very satisfactory way to keep tailored skirts in perfect condition is to use trousers hangers for them, says the St. Louis Post-Dispatch. Fold the skirt over double at the belt and fasten the trousers hanger over the folds. To keep the hanger from marking the material it presses on, sew a covering of unbleached linen over the clamps.

Racks for Eggs.  
Eggs, if kept in a cool place with a free circulation of air passing about them, will keep better than if otherwise stored, says the Newark News. Small racks for holding a dozen eggs are of convenient size for the refrigerator. They are made of enamel, the openings being of a size to hold an egg upright. Similar racks are made of wood and still others have a wooden base with a wire holder for each egg.

Worth Knowing.  
If mixed with milk instead of water, mustard will not get dry, but will keep fresh and nice until it is all used up.

Better paint the pantry shelves with white enamel. It is cleaner and more lasting than paper, and it is very attractive.

A teaspoonful of sugar added to the water for baking meat will give it a rich brown color and the flavor will be much improved.

When cooking liver and bacon, get a sour apple, slice it very fine and add it to the gravy. This will impart a delicious flavor.

To retain the heat in sadirons, purchase a square soapstone and use it for an iron stand. The irons will remain hot twice as long.

## Fashion's Frills.

Very smart are the women's shoes with black cloth tops and vamps of dull soft kid without tips.

Collars, jabots and fichus, if they give the vest or chemise effects, are fashionable.

Draped muffs of velvet are extremely large; they are frequently elaborately trimmed, says the Newark News.

To conceal, rather than outline the figure, is the distinguishing note of the up-to-date blouse.

It's better to be particular

The man who doesn't like any cigar in particular isn't particular about cigars. Keep steady company with a General Arthur and realize that a mild cigar is a habit that won't injure nerves, health or pocketbook. So mild you never feel that you've over-indulged.

Genl ARTHUR Mild 10¢ Cigar M.A. GUNST & CO. INC.

## Does Your Stomach Trouble You?

May's Wonderful Stomach Remedy Is Successfully Taken in Cases of Stomach, Liver and Intestinal Ailments. And One Dose Has Often Dispelled Years of Suffering.

MAY'S Wonderful Stomach Remedy will change that Long Face!

May's Wonderful Stomach Remedy can really be termed a wonderful remedy and the benefits it affords in many of the most chronic cases of Stomach Trouble have been a revelation from one end of the country to the other. No matter what your trouble is, if you find people who have suffered with Stomach, Liver and Intestinal Ailments, etc., and have been restored to health and are now enjoying the fruits of this remedy, there is not a day but what one hears of the wonderful results obtained from this remedy and the benefits are entirely natural, as it acts on the source and foundation of these ailments, removing the poisonous catarrh and bile secretions, taking out the inflammation from the intestinal tract and assisting in rendering the same healthy. Sufferers are urged to try one dose—antacid should relieve your suffering and convince you that May's Wonderful Stomach Remedy should restore you to good health. Put it to a test today—the results will be a revelation to you and you will rejoice over your quick recovery and once again have the joys of living. Send for booklet on Stomach Ailments to Geo. H. May, Mfg. Chemist, 156 Whiting St., Chicago. If better still, obtain a bottle from your druggist. For sale in Pendleton by the Pendleton Drug Co.
